Base equipment

Benefit

Weight	Reinforced mechanical system and polished five star base	Suitable for body weights up to 160 kg
Backrest	Ergonomically designed, high backrest to take the strain off the spine and muscles This is achieved by means of its special shape: wide at the bottom and narrow at the top	The backrest optimally supports your lumbar region whilst allowing your arms and upper body the space and freedom they need higher up in order to move around
	Backrest height adjustment convenient and easy to handle in sitting position	The amount of the support can be provided in accordance with the user's body size
	Height adjustment scale integrated	Helps to recover the optimum adjustment quickly (for example at shift work)
	Ergonomically designed, extra high seat	The seat automatically encourages the correct posture and upright, healthy sitting
Finishes for seat and backrest	With integrated pelvic support, rounded front edge and non-slip bulge	The round front edge of the seat prevents blocked circulation in the thighs The non-slip bulge prevents slipping forwards. Thus, the seat is completely utilized and the supporting contact to the backrest will be assured
	Polypropylene: Sintec is equipped with robust plastic seat and backrest shells in basalt grey (RAL 7012) (Upholstery see Accessories)	Robust, suitable for every working condition. Easy-care
Seat height	Stepless seat height setting from 450-600 mm (castors: 490-640 mm) supported by safety gas spring with protective cover	Seat height can be adapted to nearly 95% of all body sizes, the cover protects the gas spring from dust and dirt
Functions / Mechanism	Permanent contact backrest	This mechanism ensures that the backrest responds immediately to any movements of the upper body by following them Thus, the back remains supported all the time The backrest can also be locked into any tilt position if required
	Quick adjustment	Every function can be operated comfortable and easily in sitting position
	Anti-Shock lock	The backrest cannot accidentally spring forwards even after the lock has been released
Accessories	Carrying handle	Suitable to handle the chair more easily
Base	5 star base made from aluminum, polished. Flat design	Very high stability, longevity Flat design prevents stumbling hazard
